ACIDANTHERA

Abyssinian Gladiolus

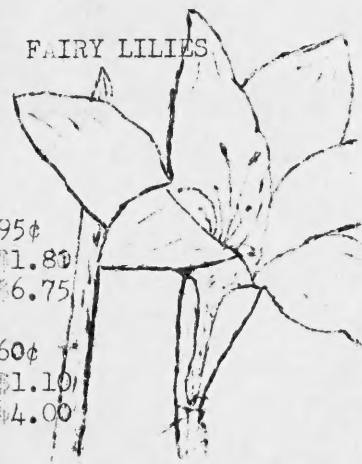

Altho not a true Gladiolus it resembles it very closely. The small corms are handled in the same manner. Flowers are cream white with purple blotch. Distinctive fragrance
 3 for 35¢ 12 for \$1.25
 100 for \$10.00

O X A L I SAmerican Shamrock

The plants have clover like leaves spotted with maroon. Dainty little flowers on 6" stems are in varying colors. Plants fine for edging, spotting here and there in the flower garden; also good in rock gardens.

Pink, rose, white, and yellow.

12 for 35¢
 100 for \$2.45
 25 for 65¢

FAIRY LILIESROSEA

12 FOR 95¢
 25 ---- \$1.80
 100 ---- \$6.75

CANDIDA

12 FOR 60¢
 25 ---- \$1.10
 100 ---- \$4.00

ZEPHYRANTHES-Fairy Lilies

Produces rush-like foliage about 6" high, from which rise open-petaled flowers similar to crocus. Many blooms all summer. Good in the rock garden or in beds.

1. The first part of the report is a description of the garden. It is a large garden with many different plants. The plants are mostly flowers and shrubs. There are also some trees in the garden. The garden is very beautiful and well kept.

2. The second part of the report is a description of the garden's location. It is located in the town of Boquim, Washington. The garden is on a hill and has a very good view of the town and the surrounding area. The garden is also very close to the town's center.

3. The third part of the report is a description of the garden's history. The garden was first planted by the town's founder, John Smith, in 1850. Since then, it has been maintained by the town's residents and is now a popular place for people to visit.

4. The fourth part of the report is a description of the garden's future plans. The town's residents are planning to expand the garden and add more plants and trees. They also plan to build a new path through the garden and a new building for the garden's office.

GLADIOLUS

	Dozen
